July 31, 2008

The chemical solutions that were used in SAE J2792 (“Test Methodology for Evaluating the Chemical Compatibility of Wheel Finishes with Various Chemicals”) can be purchased at a minimal cost at the following companies:

Cleaning Systems, Inc.	DePere, WI	(800) 225-2231
Cul- Mac Industries	Wayne, MI	(800) 626-5089
Ecolab	St. Paul, MN	(888) 207-5089

Appendix A of this SAE procedure describes three generic cleaning formulations. Companies wanting to use these formulations for testing may acquire the individual components from Sigma-Aldrich, www.SIGMA-ALDRICH.COM

The above is not an exclusive list of chemical or solutions providers. Suppliers who wish to be included in this resource list should contact the International Carwash Association at (800) 422-8422.
